## Part-time Enrollment = Flexibility

Every student is unique. Lehman Catholic strives to provide families with options that help them fulfill their roles as the primary educators of their children. Part-time enrollment provides students opportunities that fit their needs. Every student will have the freedom to participate in the activities Lehman offers including athletic teams, music programs, retreats and service projects.

## Part-time

## Enrollment = Opportunity

Lehman Catholic offers a wide range of extra-curricular and activities that help each student grow and experience who Christ calls them to be. Lehman's music, athletic and spiritual programs help students to grow and mature mentally, physically, socially and spiritually to become Children of God.

## Part-time Enrollment = Faith Formation

Lehman Catholic High School provides a religious education program that helps students grow in their faith and provides a place to practice that faith. Lehman wants every family and student to know they can live their faith in a positive environment. Part-time students are invited to participate in the many ways we share our faith given to us by God through His son Jesus Christ.
